Digify Active is a digital marketing agency specialized in the fitness and wellness industry. We help fitness brands grow and connect with their communities through innovative, data-driven and impactful strategies. Our goal is to empower gyms, studios, and fitness companies to reach their full potential online.

- Values: Authenticity, innovation, community, and growth.
- Tone & Voice: Energetic, supportive, and professional – with a passion for fitness and creativity.

Target Persona

Our target is mid-size fitness business owners who lack marketing expertise and struggle to convert online visibility into real members.

OUR AGENCY

Strategic Diagnosis Outcome

As a small, new agency, we can stay flexible and innovate faster than larger competitors. Many small and medium fitness businesses still lack access to agencies that truly understand their niche and can provide both efficient and measurable results

Strengths - Opportunities Digify Active is a data-driven agency specializing in the fitness and wellness niche, building long-term partnerships with small and medium businesses through tailored, industry-specific marketing expertise.	Strengths - Weaknesses As a small, new agency, we can use our creativity and fitness expertise to stay flexible and innovate faster than larger competitors. Our data-driven approach and strong client relationships help reduce the impact of market changes and economic challenges.
Weakness - Opportunities We will capture rising US ad spend and wellness demand through specialized fitness growth bundles and data-driven personalization. We mitigate small-team risk by standardizing delivery and leveraging trusted partners.	Weaknesses - Threats By improving processes and managing resources wisely, we can handle limited capacity. Building partnerships and upgrading skills helps stay competitive and adapt to market changes.

LUMA Workshop

Our questions:

- Trust
- Understanding the sector
- Convince is worth investing
- Beat the competition

Process reflection vs AI

- Speed and efficiency
- Creativity and originality
- Best combo

VR Tour for Gyms - Pitch

"What does the gym look like inside?"

"Do they have the equipment I need?"

WHAT IF you could answer those questions instantly—before someone even walks through your door?

With Active360, potential members get a full virtual tour that removes all doubt—no guessing, no uncertainty.

SO THAT they feel confident right away and move from “just looking” to booking a trial much faster.

FOR EXAMPLE, by exploring your gym online just like they browse products when shopping—seeing your layout, equipment, and atmosphere in seconds.

AND THATS NOT ALL – Digify Active uses the trust created by that virtual tour to boost your visibility, increase sign-ups, and keep your gym top-of-mind locally.

WHAT IS THE CONCEPT CALLED?

Activ360° Tour - Virtual Tour Service for Gyms

WHO IS IT FOR?

Gym owners, fitness studio managers, personal trainers with private spaces

WHAT PROBLEM DOES IT SOLVE?

They struggle to present their space online in a way that builds trust and drives new memberships.

WHAT IS THE BIG IDEA?

Let gym owners offer a full 360° immersive experience of their space online to attract more clients before they even visit.

WHY MIGHT IT FAIL?

- Gym owners don't see the value
- Tech feels too complicated
- Poor internet visibility / low traffic

WHAT SHOULD WE PROTOTYPE AND TEST?

- Demo tour for one gym
- Ad performance (Google & Instagram)
- Owner feedback after demo

HOW MIGHT WE MEASURE SUCCESS?

- Number of gyms signed up
- Clicks on tour links
- Increase in gym membership inquiries
- Ad conversion rates

HOW WILL WE MAKE THIS HAPPEN?

1. Build MVP (demo tour)
2. Create landing page
3. Launch Google & Instagram ads
4. Collect leads + schedule scans
5. Track feedback and improve offer

Service concept: Active360

*A PREMIUM VIRTUAL EXPERIENCE DESIGNED TO BOOST ONLINE ENGAGEMENT AND
MEMBER CONVERSION FOR MODERN FITNESS BRANDS*

FINAL AUDIENCE TARGETING

We target **medium-to-large fitness businesses** - gyms, boutique studios, and fitness centers with established operations and a solid digital presence. These organizations typically have:

- Sufficient budgets to invest in digital upgrades
- An existing website that can integrate a VR tour
- A need to differentiate themselves in competitive fitness markets

This focused segment is strategically chosen because it values professionalism, superior visual quality, and measurable impact, making them more willing to invest in higher-range service offerings like Active360.

POSITIONING

Active360 positions itself as a high-quality, professional, and competitive VR tour solution for the fitness sector.

Our service stands out through:

- Exceptional visual quality
- Specialized expertise in digital marketing and the fitness industry
- Reliable service execution, from production to integration
- A clear focus on helping gyms improve online engagement and membership conversion

This positioning allows Active360 to operate within a price range near the upper end of the market, justified by the level of service quality, industry specialization, and the competitive advantage clients gain.

Go-To-Market Strategy

Competitor	Price Point	Pricing Model	Positioning	Target Segment
360 Tour Designs	\$169-\$349 (3D tour), \$119-\$169 (HDR photos)	Pay-per-service (one-time per tour)	Affordable, professional tours for small to medium properties	Small to medium businesses, real estate agents
Merchant View 360	\$549-\$849+ (per tour)	One-time payment per tour/service	High-quality 360° tours for serious listings	Small to medium businesses, commercial properties
oVRworldwide	Custom pricing (Contact for quote)	Project-based / custom pricing	Premium, tailored 3D/VR solutions	Medium to large enterprises, high-end properties
Floorfy	\$29 - 59\$ - \$99/month (Small/medium/Large), annual plans available	Subscription (SaaS) with add-ons	Convenient, recurring access to tours with extra features	Agencies or businesses managing multiple properties, tech-savvy clients

We adopt a **pay-per-use model** (one-time fee per VR gym tour). This matches common market practice: most virtual-tour providers charge per project, offering predictable upfront costs and high perceived value for medium-large gyms.

PRICING STRATEGY & PRICE POINT

Competitive Landscape

- Virtual-tour services typically range \$130-\$430 per property
- Basic 360° tours: \$150-\$200
- Advanced 3D/Matterport tours: \$250-\$400+
- Subscription platforms (e.g., Floorfy) show similar pricing levels

What This Tells Us

The market positions high-quality VR tours in the \$250-\$400+ range, which forms our benchmark.

Price Ceiling (Based on STP)

- Target Segment: Established gyms → higher budgets & lower price sensitivity
- Positioning: Premium, fitness-focused, high-quality marketing service

Price Point Estimation
≈ **\$400 per VR tour (one-time payment)**
Price Ceiling
≈ **\$600 per VR tour (one-time payment)**

Channel & route-to-market selection

BULL’S EYE FRAMEWORK

Channels	Potential (1–5)	CPA	Customer Reach	Time to Test	Experiments
Google Ads	4	High	High	4-6 weeks	- Run search ads targeting “gym marketing agency,” “gym VR tour,” measure CTR & conversions. - Budget: €200–€400 for 4–6 weeks.
LinkedIn Ads	3	High	Medium	1–2 months	Target gym owners & studio managers with campaign on VR tours or digital growth
Partnerships (Gyms/Fitness Networks)	5	Low	Medium	2–3 months	- Identify relevant gyms and offer free audits - Consideration - No external cost—only internal time.
Instagram + YouTube Content	4	Low	Medium–High	3-4 months	- IG Reels with VR tips - Short YT videos with how-to content - Track reach, profile visits, engagement, and inbound messages
Email Marketing	3	Low	Medium	1–2 months	Create basic drip sequence for leads collected from ads or website

FROM CHANNEL SELECTION TO PROMOTIONAL ACTIVITIES

Channel 1: Google Ads (Search Campaign)

Primary Marketing Goal: Generate leads from gym owners by offering a tailored 360° virtual tour service

Key Message: “Your gym deserves to be seen. A 360° virtual tour brings new members through the door.”

Content: Short, benefit-focused copy written in a professional tone

Specific Format: Google Search Text Ad

Clear CTA: "See pricing options"
